How can LifeConcierge™ help your clients?

WHERE WE WIN

Benefit Budget Consolidation
Rising medical insurance costs are creating financial strain for many HR budgets, making it challenging to offer competitive employee benefits. Companies are replacing multiple point solutions with Overalls, enabling HR teams to continue to deliver robust benefits with a reduced budget.

Inclusive Benefit
Many times, point solutions cater to only a portion of employees. Overalls is an equitable offering for a broad population, regardless of their life stage, with high utilization.

Unused Wellness Dollars
Many companies have unused wellness funds from their insurance carriers. It's not just about spending those wellness dollars; it's about transforming them into something valuable and practical.
